This bibliography was compiled by the U.S. Army War College Library. It contains links to resources that are freely available via the Internet. It also provides links to resources available electronically through the JBLM Library System. Access to those resources requires either a current JBLM Library Account or a current General Library Information System (GLIS) account at another Army Library.
PREFACE

Post-Traumatic Stress Disorder (PTSD) began to receive significant attention in the United States following the Vietnam War when experts reported that approximately 30% of Vietnam veterans were affected. Recent estimates for Soldiers returning from combat in Iraq and Afghanistan with PTSD symptoms run even higher. While the country continues efforts to find solutions and treatments for PTSD, a problem of utmost importance directly affecting our nation’s security, the body of literature continues to grow.

This revised and updated bibliography cites selected books, documents, articles, multimedia, and web sites for PTSD related topics such as diagnosis, prevention, training, treatment, reintegration, and family issues. A separate section also focuses on traumatic brain injury, the other signature injury experienced by military personnel serving in Iraq and Afghanistan.

With a few notable exceptions, the materials in this bibliography are dated 2008 to the present. For earlier information, please refer to the previous editions of Post-Traumatic Stress Disorder and the Military: A Selected Bibliography, compiled by Lori Seakes in November 2005 and March 2008.

All items are available through the USAWC Library. For your convenience, at the end of the entries, we have added library call numbers, Internet addresses, or database links. Web sites were accessed during June 2011.

This bibliography and others, compiled by our research librarians, are available online through the Library’s home page at http://www.carlisle.army.mil/library/bibliographies.htm.

For additional information, please contact Research, Instruction, and Access Services, U.S. Army War College Library, by phoning DSN 242-3650 or Commercial (717) 245-3650, or by sending an e-mail message to USAWC.LibraryE@us.army.mil.
